VETERINARY STRENGTH

GUT HEALTH

An innovative multi-strain probiotic supplement for cats and dogs

Feature/Function:

Eight strains of live probiotic bacteria in concentrated form (10 billion CFU/gram): *Lactobacillus acidophilus, rhamnosus bulgaricus, plantarum, reuteri, and casei. Bifidobacterium bifidum, and longum.*

Benefit:

Multi-strain probiotic powder with 10 billion CFU/serving with strains carefully selected to help restore the beneficial microbiota in dogs and cats for superior gastrointestinal and immune system support in both the large and small intestine.

Feature/Function:

Odorless, tasteless, powder probiotic with no animal proteins and an 18-month shelf life.

Benefit:

Great for allergies and sensitive diets. Single formula for both canine and feline means minimal inventory. Flavorless powder that is extremely easy to administer with no palatability concerns.

Feature/Function:

Contains 200mg of FOS (Fructooligosaccharides) prebiotic fiber.

Benefit:

Prebiotic soluble fiber (FOS) stimulates the growth of beneficial bacteria, supports nutrient digestion, and maintains normal balance and regularity.

Research shows that fructooligosaccharide supplementation supports healthy gut microbiota composition in dogs and cats. FOS is well known to promote fecal bulk and normal transit time in pets and in senior cats, and modulates stool odor-forming compounds.
