Praziquantel Injection Cestocide for Dogs & Cats
(praziquantel)

Praziquantel Injection
(praziquantel)
INJECTABLE CESTOCIDE FOR DOGS & CATS
56.8 mg/mL Solution • Veterinary
NADA 111-607, Approved by FDA

CAUTION: Federal (U.S.A.) law restricts this drug to use by or on the order of a licensed veterinarian.

FEATURES
• Broad-spectrum cestocide for use in dogs and cats
• Available in 10 mL and 50 mL vials
• Low toxicity - No toxicity demonstrated in dogs or cats at 5x dosage rates

FUNCTIONS
• Indicated for the removal of the following canine and/or feline cestodes
  Dogs: Dipylidium caninum, Taenia pisiformis, Echinococcus granulosus including Echinococcus multilocularis
  Cats: Taenia taeniaeformis and Dipylidium caninum
• Formulated for flexible subcutaneous or intramuscular use in dogs and cats
• Safe for use in breeding and pregnant dogs and cats

BENEFITS
• Provides equivalent effectiveness at less cost
• Increased ease of use when treating variable sizes of dogs and cats
• Safe for use in breeding and pregnant dogs and cats

Federal (U.S.A.) law restricts this drug to use by or on the order of a licensed veterinarian.
Not intended for use in puppies less than four weeks of age. Not intended for use in kittens less than six weeks of age. Strict hygienic precautions should be taken when handling dogs or feces suspected of harboring E. multilocularis. Infected dogs treated for the first time with Praziquantel Injectable and dogs treated at intervals greater than 28 days may shed eggs in the feces after treatment.

**Note:** Canine and feline cyclophyllidean cestodes are sometimes referred to as “true” tapeworms.

*Praziquantel Injection Cestocide is indicated for the removal of the canine and/or feline cestodes identified above with an asterisk (*)

Additional information on the life cycle and epidemiology of this parasite is available in veterinary parasitology texts. ¹ ²

**REFERENCES:**

Droncit® is a registered trademark of Bayer HealthCare LLC

---

**The life cycle of the parasite is based on a predator-prey relationship, as depicted above.**

**The Product Information, Indications, Dosage and Administration, Warning Statements as well as Material Safety Data Sheets (MSDS) contain more detailed occupational safety information found on our website www.bimedaus.com or by calling Bimeda customer service at 888-524-6332.**

---

**Qualify (Check-off)**

*Doctor, are you aware that Bimeda now has Praziquantel Injection Cestocide for Dogs and Cats?*

- If **YES** – confirm benefits
- If **NO** – detail Praziquantel as the primary contact

**Check-off & Echo Notes**

**Confidence**

*Doctor, Praziquantel Injection provides you with a safe, effective, alternative to Droncit® in the removal of cestodes.*

**Invitation (neutral)**

*Let’s take a few minutes to review Praziquantel in the context of your tapeworm treatment approaches...*

**It’s the customer’s decision**

*... then you can determine if these Bimeda SKUs provide a more cost effective tapeworm treatment.*
