

Meloxidyl® (meloxicam) Oral Suspension

A trusted NSAID Oral Suspension to control the pain
and inflammation associated with osteoarthritis.

Feature/Function:

Effective pain control – reduced pain and inflammation associated with osteoarthritis.

» Benefit:

Can help increase quality of life and mobility for dogs.

Feature/Function:

Oral suspension – owners can easily administer doses to dogs of all weights via syringe. Every bottle of Meloxidyl® (meloxicam) includes two dosing syringes—one for small dogs and another for large dogs.

» Benefit:

Convenient and easy dosing for clinics and pet owners.

Available in 10mL, 32mL, 100mL
and 200mL size bottles

Feature/Function:

A single concentration (1.5mg/mL) with a range of bottle sizes (10mL, 32mL, 100mL, 200mL).

» Benefit:

Makes it easy to dispense the right quantity to clients.

DO NOT USE MELOXIDYL ORAL SUSPENSION IN CATS. Acute renal failure and death have been associated with the use of meloxicam in cats. Dogs with known hypersensitivity to meloxicam or other NSAIDs should not receive Meloxidyl Oral Suspension. Meloxidyl Oral Suspension is not recommended for use in dogs with bleeding disorders. If vomiting, diarrheas, decreased appetite or other signs of illness are seen, discontinue treatment immediately.
