Feature/Function:
Has a robust formula of glucosamine HCL, MSM, GlycOmega ™ brand perna mussel, manganese, HyaMax® Low Molecular Weight Sodium Hyaluronate (Hyaluronic Acid), Sodium Selenite (Selenium) and N,N-Dimethylglycine HCl (DMG).

Benefit:
VetriFLEX® contains a unique combination of ingredients designed to address the many aspects of hip and joint health, such as providing the critical building blocks for cartilage and soft tissue, and helping to replenish synovial fluid.

Feature/Function:
Contains Phytosome™-based ingredients – CurcuVET® brand Curcumin, Casperome® brand Boswellia, and LeucoSelect® brand Grape Seed Extract.

Benefit:
VetriFLEX® goes beyond the typical hip and joint supplement. These unique Phytosome™ ingredients easily cross the gut barrier, resulting in superior absorption and significantly higher blood levels of each ingredient to support a healthy inflammatory response, helping patients feel and act better faster.

Feature/Function:
Does not have a recommended loading period.

Benefit:
Your clients will be thrilled that they no longer have to go through a costly and lengthy loading period, which can lead to greater compliance.

Casperome®, CurcuVET®, LeucoSelect®, and Phytosome™ are registered trademarks of Indena S.p.A.
GlycOmega™ is a Trademark of Aroma New Zealand LTD.
HyaMax® Brand Sodium Hyaluronate is a Trademark of Fenchem Enterprises, LTD.
VetriFLEX® is formulated to provide more comprehensive joint support than the average supplement by also assisting with a healthy inflammatory response.

Our formula of glucosamine HCl, MSM, and perna-based chondroitin sulfates provide critical building blocks for cartilage and soft tissue, and helps replenish synovial fluid.

VetriFLEX® takes the GlycoFLEX® 3 base – including Glucosamine HCL, MSM, DMG and perna – and adds HyaMax® low molecular weight Hyaluronic Acid, LeucoSelect® Grape Seed Phytosome™, CurcuVET® Cucumin Phytosome™, and Caspersome® Boswellia Phytosome™ to support a healthy inflammatory response.

The utilization of phytosome ingredients help eliminate the costly and lengthy loading period, which means your clients will see quicker results and improved compliance.

VetriFLEX® is available in a highly palatable chew or chewable tablet, is available exclusively to veterinarian offices, and is backed by a 100% satisfaction guarantee.

**Check-Off (Qualify)**
Identify if the customer currently recommends GlycoFLEX® or other competing join health supplement:

**Doctor, are you familiar with VetriFLEX® by VetriScience®, the makers of GlycoFLEX®?**

If **Yes**, confirm and discuss benefits further.
If **No**, engage/detail the customer as the primary contact.

**Confidence**
In addition to providing joint support, the unique formulation in VetriFLEX® also assists with a healthy inflammatory response.

**Invitation (neutral)**
Let’s take a look at some basic information about VetriFLEX®…

**It’s the customer’s decision**
…so you can decide whether VetriFLEX® is a solution you’ll consider for your patients presenting signs of mobility challenges associated with hip and joint health.
