Features/Functions:
Rescue™ is an EPA Registered Disinfectant Cleaner that kills in as little as 30 seconds to 5 minutes* - Kills Canine Parvovirus, Canine Distemper virus, Feline Calicivirus and other pathogens in half the time of other disinfectants.

Benefit:
Faster
The short contact times of Rescue™ ensures that the solution won’t dry out before disinfection occurs.

Features/Functions:
Rescue™ is an effective one-step disinfectant cleaner.

Benefit:
Cleaner
Using Rescue™ means that you are starting to disinfect while you are cleaning, and cleaning while you are disinfecting, saving product, time and money.

Features/Functions:
Rescue™ has an unparalleled health and safety profile, and is tested as the least toxic on the EPA Toxicity Rating.

Benefit:
Responsible
Rescue™ is very gentle, eliminating the need for personal protective equipment, simplifies OSHA compliance, has no harsh chemical odor, reducing the fear, anxiety and stress that clients and pets encounter during a veterinary visit.

Features/Functions:
Rescue’s™ active ingredient, Hydrogen Peroxide, breaks down into water and oxygen leaving no active residues.

Benefit:
Sustainable
Rescue™ can be used continuously without the concern of antimicrobial resistance, allowing for simplified protocols.

Features/Functions:
Rescue™ is gentle on a wide range of materials.

Benefit:
Compatible
Rescue™ is tough on pathogens, but is gentle on a wide range of surfaces requiring disinfection, to help protect valuable investments, such as equipment, kennels and more.

What makes Accelerated Hydrogen Peroxide® (AHP®) disinfectants so different? Formulating a disinfectant that kills pathogens is easy, formulating a disinfectant that kills AND is less toxic is difficult. Our Rescue™ surface disinfectants were deliberately designed to be effective against a broad-spectrum of hard to kill pathogens while remaining gentle for users, animals, materials and the environment. Using Rescue™ improves both animal and human health while protecting your assets by reducing the risk of exposure to harsh chemicals and deadly pathogens.

That’s why we are not just different from what you’re currently using, we are 1-800-387-7578 | viroxanimalhealth.com

Confidence
Rescue™ disinfectants were deliberately designed to be effective against a broad-spectrum of hard to kill pathogens while remaining gentle for users, animals, materials and the environment.

Invitation to neutral
Let’s review some key benefits.

It’s the customer’s decision
...so you can decide whether Rescue™ is a solution to help reduce the risk of exposure to harsh chemicals while still ensuring superior speed of disinfection.

Virox Animal Health™ is a proud corporate sponsor of Fear Free™. Unlike competitive chemistries, such as bleach, our Rescue™ disinfectants have no harsh chemical odor, helping to eliminate the fear, anxiety and stress that patients and clients encounter during a veterinary visit. Rescue™ is the obvious choice of disinfectant for practices with a desire to increase veterinary visits.

Rescue™ is available in multiple formats including Concentrates (providing financial economies), Ready to Use Liquids and Pre-saturated Ready to Use Wipes.

Check-Off (Qualify)
Identify if Rescue™ information has recently been presented.

Doctor, are you familiar with Rescue™ One Step Disinfectant Cleaner, a family of Accelerated Hydrogen Peroxide® Disinfectants for Infection Control & Biosecurity?

If YES, confirm and discuss benefits.
If NO, engage the customer as the primary contact.
