

Not All Vaccines Are Created Equally

The Ultrafil® Purification Process: The Clear Choice

Manufacturer X

VETERA

Manufacturer Y

- A unique antigen filtration process used in VETERA® and Calvenza® vaccines.
- Each antigen is purified independently to maintain their specific immunogenic properties, minimizing undesirable cellular components.
- Backed by 10+ licensing and post-licensing studies, including challenge studies

FEATURE

VETERA is the only vaccine portfolio demonstrating duration of immunity (DOI):

- Of at least six months to a Florida sublineage clade 1 EIV challenge
- Of at least 12 months for WNV, utilizing a 2005 WNV isolate as its vaccine strain

BENEFIT:

- You can use VETERA vaccines with confidence as they are tried and trusted with more than 16 million doses used in horses

FEATURE

VETERA and CALVENZA are the only vaccines that utilize Ultrafil® purification technology and are the only vaccine portfolios with Carbimmune® adjuvant formulation.

BENEFIT:

- Optimizes the immune response while minimizing extraneous protein and cellular debris that may contribute to vaccine reactions

FEATURE

VETERA is the only portfolio with a 4-month-old safety and efficacy claim, may override maternal antibodies¹, and is the only portfolio with a safe in pregnant mare claim.

BENEFIT:

- Adds flexibility to vaccination protocols in foals
- Safe for use in all stages of pregnancy in mares

¹Conklin B., Blodgett G., Adams A., Jones T., Grubbs S., Canaday N., and Miliken G. 2015. The ELISA WNV IgG antibody response in foals (with and without maternal antibody) following vaccination with VETERA VEWT + WNV. ACVIM Forum, Indianapolis, IN.

CHECK-OFF &
ECHO NOTES

First, always ask if a Boehringer Ingelheim representative has been in contact recently:

Doctor, are you familiar with Vetera® vaccine portfolio for horses with patented Ultrafil® purification technology and Carbimmune® adjuvant formulation?

If **YES**, confirm and discuss benefits.

If **NO**, engage/detail the customer as the primary contact.

Confidence

I believe the safety and efficacy of VETERA vaccines will help your staff feel more confident about your vaccine protocol.

Neutral invitation

Let's take a look at some of the unique features of VETERA...

It's the customer's decision

...so you can decide whether VETERA vaccines are the best solution for your patients.
